Kansas City District

Biography

Stephanie Lauren Hall, PMP

Program Manager N2W

Stephanie Hall is a Program Manager for USACE Mega-project N2W. The N2W Program was assigned to the Kansas City District for execution of design and construction of the new NGA Campus West. Stephanie is responsible for the team that will provide planning, design, procurement and construction oversight and contract management of this facility. The nearly billion dollar project will accommodate new technologies and processes that will generate beneficial synergies through integration, collaboration, and geospatial data immersion. The ‘purpose-built’ facility will provide an open flexible work environment that is scalable, reconfigurable, and adaptive to changing mission requirements and the associated changes in workflow and data sharing methodologies. The project will provide NGA’s workforce with safe, secure, and efficient facilities that will meet the agency’s long-term requirements and vision for Geospatial-Intelligence (GEOINT) and will be consistent with the Director National Intelligence (DNI) facilities strategic plan.

Stephanie came to the Kansas City District in 2016 from the Far East District in South Korea, where she served as the Land Partnership Plan Branch Chief in the Korea Program Relocation Office.

Stephanie holds bachelor’s degrees in economics and civil engineering from the University of Missouri at Rolla, now Missouri S&T. She is a Certified Project Management Professional, a member of Society of American Military Engineers (SAME) and Project Management Institute Metropolitan St Louis Chapter.

Over the course of a 20 + year career as an Army Civilian, Stephanie has held positions in several USACE Districts and in US Army Installation Management Command. Early in her career, Ms. Hall worked in Engineering and Construction throughout the Lower Mississippi Valley. Ms. Hall’s other assignments include, Germany in support of EUCOM and AFRICOM, Savannah District in support of Ft. Bragg, Hurricane protection Office and the New Orleans District for Hurricane Katrina recovery and reconstruction.

Stephanie was born in New Orleans, Louisiana, and has four grown children and three granddaughters.
